How to Use Today's Internet Technology to Increase Law Practice Efficiency and Profitability

Sit back and try to remember the advantages of working for yourself; flexible hours, financial independence, satisfied client base, etc, etc, etc. Often things don't work out as smoothly as we hope. Working for yourself can be extremely satisfying, but can require more time and effort than is imaginable. A small law firm is fraught with problems including limited resources, too large or small a workload and balancing billable activities against non-billable activities. Most of these problems can be addressed with self-discipline and the correct use of technological resources.

The evolution of law firm technology has 000 3an log bway Bck ainthe c"Dak oAes " blor-iternsve Ssystems co rilla ime and emnagem
